First-year course planning 2026-27

Bachelor of Health Science, Radiological Technology

The guide below can assist you with your first-year course selection. Use the table below, the academic timetable, and the schedule worksheet to build your schedule. You should schedule your required courses first and then choose your electives based on your interests and future goals. For complete program requirements, see the Dalhousie Academic Calendar at www.dal.ca/calendar or ask your faculty advisor Stephanie Lea at stephanie.lea@dal.ca.

REGISTRATION: If a lab has more than one section and is not specified below, you only need to choose and register for one. If possible, all students should register for courses prior to July 15th.

For each term, please register for IPHE 4900 (Section 3) before all RADT courses. Students will experience issues registering for RADT courses without prior registration of IPHE 4900.

Fall 2026	Winter 2027	Summer 2027*
Interprofessional Health Education (IPHE) 4900: Interprofessional Health Education Portfolio Lecture section 03	**Interprofessional Health Education (IPHE) 4900:** Interprofessional Health Education Portfolio Lecture section 03	**Interprofessional Health Education (IPHE) 4900:** Interprofessional Health Education Portfolio Lecture section 03
Radiological Technology (RADT) 1000: Skeletal Radiography Lecture, Lab, and Tutorial	**Radiological Technology (RADT) 1020:** Skeletal and Systems Radiography Lecture, Lab (B01 or B02), and Tutorial	**Radiological Technology (RADT) 1500:** Clinical Practicum Eight weeks of full-time rotations in clinical settings.
Radiological Technology (RADT) 1010: Imaging Fundamentals Lecture and Lab	**Health Sciences Education (HSCE) 1010:** Clinical Skills for Health Sciences Lecture and Lab (B01, B03, or B04)	***Registration for Summer 2027 will open in February.**
Health Sciences Education (HSCE) 1000: Foundations of Health Care Practice Lecture only	**Health Sciences Education (HSCE) 1030:** Human Anatomy and Physiology II (Online) Lecture only
